

| Subject | We are learning about: |
|-----------|--|
| RE | Easter: Discuss the Resurrection and how the women felt when they discovered Jesus was gone. Discuss their own feelings. Look at the Easter candle and the signs and symbols of Easter. Read and discuss the story of the Ascension. |
| Numeracy | Look at 2D and 3D shapes. Know the names of these, describe them and link them to everyday objects. Know position, direction and movement of these within a grid and describe them using simple coordinates. Know what an odd or even number is and solve time problems. |
| Literacy | Poetry: Read with expression, recite and write their own poems. Look at poems with or without rhyming words. Write expanded noun phrases when describing a story from another culture. |
| Science | Plants: Label parts of a plant and know its function. Explain the best conditions for a plant to grow and investigate their ideas. Talk about where plants live and discuss different plants around our school environment. |
| PE | Team games: Develop their skills using a bat and ball progress onto playing a team game of cricket. |
| Computing | To know the features of a powerpoint and design and make their own information slides about toys using powerpoint. The children will learn how to access powerpoint, add text, add an image, change font size and colour and add a new slide. |
| Geography | |
| History | Discuss old and new toys and the difference in the materials. Talk about the history of the teddy bear and where it gets its name from. Talk about their favourite toy and design a toy of their own. |

| | |
|-------------------|--|
| Art | Look at scaling and how we draw accurate sized pictures. |
| Design Technology | |
| Music | Listen to the nutcracker. How does it make you feel? |
